Flying out, all alone
Wrapped up in my fear
Only you, can see right through
Make it seem so clear

A flight went over, rolling over
Blasting into space
A blazing comet, smiles upon it
You're still the happiest face

(Chorus)
Wake me up
Shake me up
Race me to the stars
So much to know, so far to go
Galaxy is ours
Galaxy is ours my girl, galaxy is ours

(Repeat 2x)

Mystical lights, magical nights
A chance to blaze new trails
Open your eyes, travel the skies
Your spirit makes up your face

So wake me up
Shake me up
Race me to the stars
So much to know, so far to go
Galaxy is ours
The galaxy is ours my girl, the galaxy is ours

The galaxy is ours..
Galaxy is ours..
Yeah, the galaxy is ours..
Galaxy is ours..
Galaxy is ours...
