Look, behind of you
You couldn't believe you'll keep
Higher than yesterday

Now you can taste the glory
So good taste today
The echo of the pain

Go! Reach!
Only twelve meters far from you
You can feel the glory striking your heart
Recognizing! The reason 'coz you cry
It's time for victory

Mankind will remember you
As the guy
That hadn't fear to lose

Brave your heart, brilliant your mind
Triumph was your allied
Until the end

Go! Reach!
Only twelve meters far from you
You can feel the glory striking your heart
Recognizing! The reason 'coz you cry
It's time for victory

Go! Reach!
Only twelve meters far from you
You can feel the glory striking your heart
Recognizing! The reason 'coz you cry
It's time for victory
