Bitterness, my loyal friend  
I shot you in my veins  
She chose for another life  
Where the hell did it go wrong?  
Some feelings will never die  
My last breath will whisper your name  
It hurts to admit but I've lost track  
Don't want no help, for this is my grief  
Crucified  
Labyrinth of chimeras  
Crucified  
Euphoric dance of insanity  
Crucified  
Grand opening at the theatre of loss  
Crucified  
I must make the apostasy of you  
Ego's bleeding  
Eden's burning  
Ripped of pride, ripped of self-esteem  
Naked in the freezing cold  
I took my scars, I've carried on  
Why can't I just forget your name?  
Dreamer, I'm shattered inside  
Stronger, yet dead inside  
I used to see a glimpse of paradise through your eyes  
Nevermore  
Shall I be the same but I don't hate you  
How did love die in your heart?  
How did you grow apart from me?  
All these questions I can't answer  
I guess I'll never know  
What could have been my existence  
But life goes on just the same, unforgiving  
Now your name fades away  
I'm drifting off in disarray  
Now your kiss fades away  
You were never meant to stay  
Bless your soul, darling  
Just forget all of this  
Don't you look behind  
To see the fallen angel  
You've enlightened my heart and my soul

This is the memory of you I have kept  
I hope you'll remember me somehow  
Though Eden's dead and buried
