I'm afraid, I can't stand this loneliness  
I need your touch, fuel of life  
Look into the eyes of the faint-hearted  
I need your heart, fuel of life  
I need your love, fuel of life  
Don't you turn away, come closer now  
Soon there won't be a turning back  
Point of emotional no-return  
Walls closing in, close you eyes  
You think you know who I am but you  
Can't see through the web of lies  
Cause I have betrayed, lied and deceived  
Just like all, all of you  
This is the game we're all meant to play  
Take a step into my world  
Lie, we must lie to meet love, conquer hearts  
Dangerous, ominous  
Lie, we must lie  
Or die alone  
Dangerous, ominous  
I ain't the worst kind  
Misunderstood  
Dangerous, ominous  
I'll play 'til the bitter end  
Let me drag you into my world  
I just need your trust  
Let me drag you into my world  
I shall see myself in your eyes  
Or I'd be lost  
In nothingness  
You think you know  
What I've done?  
You think you know  
What's behind this mask?  
Honesty, you believe in honesty?  
You should run away  
Let me be everything you ever wish I'd be  
You should be more careful what you wish for  
Lost in psychotic war, you will fall  
Love, you're in love  
Lost, now you're lost  
You're roaming on the edge of thorns

Doors closed, you're mine now  
Doors closed, cycle ends  
The place where you belong  
Is right here with me  
Fill my heart with some hope  
We all need some light  
You believe in false Messiahs  
But we're all clowns  
Dangerous, ominous  
Please, don't cry  
I'm worth so much more  
You believe in this utopia  
But we're all frauds  
Dangerous, ominous  
Please, don't cry  
You ain't seen nothing yet  
[Repeat first & second verse]  
Closer to your heart  
I live in my own lie  
Closer to your end  
You live in my own hell
