

Pseudo Echo

"A Beat For You"

Visit "[A Beat For You](#)" on MotoLyrics.com

In my life I've many strong desires
And still in all I'm reaching for the fire
You never look, you never see
You never notice when you're next to me
But feel my heart, it's burning with desire

There's a beat for you in my heart
I tell you true from the start

Catch a glimpse, remember it forever
And still I try to keep myself together
You never speak, you never hear
You're never closer when I want you near
But feel my heart, it's burning with desire

There's a beat for you in my heart
I tell you true form the start
