(J. Martinez/Psychefunkapus)

I strip my disguise right before your eyes and let  
You believe what you want to believe  
Your mystical touch is a bit too much  
For the sensitive state that I find myself in  
Please don't tell me that you want to stay  
I don't think I can take you this way  
There are things that need not be explained  
Walk away from me please  
There once was a time when I dreamt you'd be mine  
But 'twas so long ago that I barely recall  
We both were so young, our lives just had begun

And this look in our eyes held both hunger and fear  
Please don't tell me that things haven't changed  
I'm much older and much more deranged  
People say the things I do are strange  
Walk away from me please...

CHORUS

Don't make a sound, keep your head to the ground  
And just walk away, walk way  
Put on your dress, there's no need to confess, baby  
Walk away, walk away
