Breed of the system deny my existence
Bleeding like fucking pig revenge is my fifth sense

Lest we forget our detention
I'll carry on till the day
I can't defy my will any more said Darwin
Lest we regret our pretension
I'll carry on till the day
I can't rely on me any more

Breed of the system deny my existence
Bleeding like fucking pig revenge is my fifth sense

Please tell me something I can use Cause this
Life is just so fucking hard

Take me somewhere to feel you close to me
I saw you walking my way
Saving all your love for me
U got me crying again
Can't deny I feel that
Life is just so fucking hard

There'll be something I'll be screaming I'm feeling
I'm caught up in the act like a little bitch oh my
Fortify the strife it's going on tonight
Got to cut u a name Got to blow u a life
45 u got to see me mother
45 u got to feel me mother
45 u got to see me mother
