"Get Down"

Visit "[Get Down](#)" on MotoLyrics.com

Hunting down this coalition, to escape my deep
depression
Sloth- give to me back sloth, give to me
Breeders of the malnutrition, standing clear from my
extinction
Sloth- give to me back sloth, give to me

Word, for every time I fell, I swear I won't back down
Structure's crumbling - Get Down x4 bite the bullet spit
Form a guided meditation, trying to heal my deep
infection
Sloth- give to me back sloth, give to me
Something more than a suggestion, random things get
my attention
Sloth- give to me back sloth, give to me

On a mystic path I wander, through a violent way of
being
And my youth won't ease my hunger, as I can't get rid
of my skin
