Little pretty one - it sure looks like fun
When everything is said and done
I wanna enjoy - you wanna destroy
There's nothing left you can enjoy

Only silence - pain inside
I close my door but you will hang around and try to
suck me dry

So who's the man - I don't understand
I can't believe
But here I go - don't wanna know
I feel awright just let me be

Only silence - pain inside
I close my door but you will hang around and try to
suck me dry

Don't give a damn
I don't fit in your future plan
Don't give a damn
I make believe you're someone else that I can stand

I testify - you wonder why
There's no feeling left inside
Don't wanna know - how far I go
I feel awright so let me be
