I wanna call you on the telephone

Sitting here I'm so alone

I need you close to me tonight

The sun is shining, the summer is here

How I need to have you near

You're all I need to feel alright
Cold nights are hard to face

Let me take you to a special place

If you just give me one more chance

I'm trapped in the heartbreak zone

Cold chillings in my bones

Oh, how I miss our sweet romance
Somebody told me "that's the way it goes"

But nobody told me it hurts to be alone
Don't leave me stranded

Don't leave me sad and blue

Just tell me what the hell to do
Eventhough I treated you bad

You're the best girl I ever had

Sometimes I think I'm born to lose

Oh, how I need you here by me

To end this misery

I know you're thinking of me too
If you just take the time

Maybe you'll change your mind
