I want to tell you all something  
It's about certain people  
And their parade of lies, that shine

Brighter than the stars in the skies  
If you peel back their disguise  
You will see the serpents eyes  
Forked tongues, blue blood  
And whispered lies

On the silver screen  
It's not all it seems  
Vanity is golden opportunity  
For the weak minds  
Working overtime  
On the lies, financed by the state

I didn't know, what should I be  
The way this propaganda is setting up for me  
It's all setup, right from the start  
These walls went up, the gates came down and isolate  
my heart  
I couldn't breathe, I couldn't see  
The shadows of the past, keep catching up with me  
I'm not anyone

I'm here, you're there  
But where are we  
Confined, to this  
Straight jacket, society

So here I sit, it's all a dream  
I can't imagine anything, my thoughts are so serene  
It's like a drug, just helping me  
Or just like wearing glasses when I really don't need to  
see  
All of their lies, or their disguise  
All the macho-insecuritized, trivialized, or franchised  
All through the corporate pipelines,  
Designed to take away my mind  
We all die

In my eyes, criticized, hypnotized,  
Never realized just what I had to do  
Now I see, mythology, I really need to leave,  
I really need to leave and get this out to you.

Straight jacket... society

You will never see  
The truth, the lies, the blood, the stars, the stripes  
Taking new forms today  
It's all a lie, patronized, demon eyes  
Dopple gang control, the patrolled by the serpents eye.
