

Puddle Of Mudd "Migrain"

Visit "[Migrain](#)" on MotoLyrics.com

There's a pain in my head and I can't reject
every time I try to think I can't remember anything
It's getting bigger and bigger should I squeeze the
trigger
make the pain just fade away drop another pill and stay

no pain no gain migraine
no pain no gain migraine

I met the messenger there's no message for me
looked through all the magazines but I can't find
anything
pain is getting bigger I can't pull the trigger

there's only one option left
now this pain it's in my chest

no pain no gain migraine
