You're a million miles away but I can still see your face  
I can still taste your lips from the kiss yesterday  
I heard you left the other day, took another trip to outer  
space  
I will chase you around the world, I can still heal you, I  
can still feel you, I can still  
hear you calling my name

*[Chorus]*

I've been thinking about you  
I've been dreaming about you, every night and  
everyday  
I keep waiting on you  
Been praying for you that maybe you'll come back  
again someday

Should of been a piece of cake  
But I guess it had to end this way  
Why is everything such a waste?  
I wanna keep holding on  
Holding on to what we got  
But everything that we had is already gone  
I can still heal you, I can still feel you, I can still hear  
you calling my name

*[Chorus]*

I've been thinking about you  
  
I've been dreaming about you, every night and  
everyday  
I keep waiting on you  
Been praying for you that maybe you'll come back  
again someday

*[Bridge]*

I've walked around the world about a million times  
Just to find you girl, can't get you out of my mind  
I'd cross a burning bridge in the nick of time, just to  
save you girl  
Can't get you out of my mind, can't get you out of mind

*[Chorus]*

I've been thinking about you  
I've been dreaming about you, every night and  
everyday  
I keep waiting on you  
Been praying for you that maybe you'll come back  
again someday

*[Outro]*

I've been thinking about you girl  
I've been dreaming about you every night  
I keep waiting on you and praying for you  
That maybe you'll come back again someday
