I can't believe  
yeah their talking over  
and all this confusion  
is what I gather  
well it's about time  
yeah they draw the line  
and the clock's still ticking  
but there's no more curfew

I still can't find my way  
someone show me a sign  
I'm right back where I started  
and I'm running out of time

not to touch this  
please don't take that  
it belongs to me  
you better give it back

give it back  
well it's about time  
yeah they draw the line  
there's no more curfew  
and the clock's still ticking

not about giving in  
not about your concern can show you what I mean  
not about giving in  
not about your concern  
I can show you what I mean
