Two things that leaves me full of scars.
The cheapest girls, the fastest cars.
Darts and queens don't interest me.
I only live for big bad B.

They mess me up and steal my sleep.
Leaves me longing for "beep-beep".
Guess I'm hooked on the second letter.
Trust me there is nothing better â€¦

My coke bottled shaped b-body.
It won't stop for nobody â€¦

When you think you have them running good.
They knock you out with a change of mood.
'cause a human B is like the one on wheels.
Noone knows just how it feels.

I just can't shake this B addiction.
But a life with one is filled with friction.
Just fill her up and ride with style.
Get high on B just for awhile.

My coke bottled shaped b-body.
It won't stop for nobody â€¦
