Such a muddy road : How far does it go?
You not only get dirty,
But your teachers' directions are different and
The last train gets further

Rushing around and around and then stuck
It's still dark out but morning comes

Let's play until it's disgusting
Let's play in a world that has everything
Let's play until you let go
Come and catch me here : Let's play!

The view through a donut hole
Alone, a curse
I don't seem to be trusted
Since I get jerked around

You don't notice that the rails are twisted
I'm not waiting for you : I'll leave now

Let's play the way I like to
Let's play and get sweaty
Let's play while you're alive
Come and catch me quick : Let's play
