It's alright

Said she wants my loving all night
When she get it she'll be alright
Said she wants my loving all night
When she get it she'll be alright

Well, now she call me on the phone and said she's
home alone
And she wants me to come over and make her house a
home
Well, I gave it to her once and I liked how she responds
Well, now I'm in trouble, yeah

Said she wants my loving all night
When she get it she'll be alright, all night
Said she wants my loving all night
When she get it she'll be alright

It seems she need to oil her spine
Tell all a gyal toast bread can't build di putty gold mine
Need all di doctor fish with di essential slime
She tell me she want to signal the plane 'n time mi want
slow wine

Turn on di HBO she want fi watch 'Showtime'
Give her di cordless microphone, she want di one with
line
Seem like me and this young gyal, ya just can't
combine
So it's sour like lime, running it down the line, Mr.
Muffin one time

Said she wants my loving all night
When she get it she'll be all right, all night
Said she wants my loving all night
When she get it she'll be all right

She call mi pon di I 95
How mi ah tek so long, she ah wonder which car mi
drive
Tired fi listen album now and she want me live

Tell me she want fi come, knock her out till she can't
revive

So, ah so mi planet and di stars align
She tell me she want me, know which part her hills and
valley dem join
Seh she want me ride her like a Ferrari sign
Put appointment aside
Nothing can't compromise fi di vibes I provide, bim

It's alright
She wants my loving all night
When she gets it she's all right
She wants my loving all night

I should no make no physical contact
Tell her fi hold it down and still she just can't quiet
Seh mi take her up and turn her maniac
Tellin' me dat I compliment her natural habitat

Well, it seem like she deaf or she blind
Want come step inna mi life, when time she deh far
behind
Want mi play her rhythm till di tape want rewind
And she nah watch no time and she just nah resign
Till she see the sun shine, okay
