(Milan Hlavsa/Pavel Zajicek)

A time of memories, a time of forgetting

A time of black holes, a time of white walls

A time of madness, a time of mirrors

a time of enchantment, a time of hysteria

CHORUS

City of hysteria

A time before, a time after

A time of blindness, a time of fantasy

A time of dead streets, a time on the edge

A time of desperation, a time of amazement

CHORUS

A time of illusions, a time of life

A time of distant lands, a time of one place

A time of innocence, a time of emptiness

A time of obsessions, a time of perversity

CHORUS
