Standing there before you / defences thrown aside / I
thought I heard you laughing / but
When I asked you said you'd cried / I wanted to believe
you / yes I wanted to feel strong
/ but looking at my picture / I realised I must be wrong /
sounds so weak / it sounds so
Fey / it doesn't sound / like what I meant to say / I speak
to you / with a borrowed
Tongue / shall I stop right now / or blindly carry on? /
choose one [?] / but I'm not
Everyone / I only have one viewpoint / don't talk to me
of right or wrong / and didn't i
Often tell you / oh didn't I often say / that something in
your manner / that really takes
My breath away? / it's not weak / to show I care / I know
of those / who wouldn't even
Bear / the fact remains / I feel a need / is it love / or is it
simply greed? / it's not
Weak / to show I care / I know of those / who wouldn't
even bear / the fact remains / i
Feel a need / is it love / or is it simply greed? / you
choose what you believe in / as
Far as I'm concerned / but one thing I can tell you / is
innocence cannot be learned / i
Wish you'd stop me talking / oh I wish you'd shut my
mouth / well the reason why I tell
You / is I think that you could help me out / and if you
do then there's no doubt / that
All my problems won't just fly away.
