Don't bother saying you're sorry / why don't you come
in / smoke all my cigarettes again /
Every time I get no further / how long has it been? /
come on in now, wipe your feet on my
Dreams / you take up my time / like some cheap
magazine / when I could have been learning
Something / oh well, you know what I mean, oh / I've
done this before / and I will do it
Again / come on and kill me baby / while you smile like
a friend / oh and I'll come
Running / just to do it again / you are the last drink I
never should have drunk / you are
The body hidden in the trunk / you are the habit I can't
seem to kick / you are my secrets
On the front page every week / you are the car I never
should have bought / you are the
Dream I never should have caught / you are the cut that
makes me hide my face / you are
The party that makes me feel my age / like a car crash I
can see but I just can't avoid /
Like a plane I've been told I never should board / like a
film that's so bad but I've got
To stay till the end / let me tell you now: it's lucky for
you that we're friends.
