"Master Of The Universe"

I am the master of this universe and I've got so big it hurts
Raise your eyes and graze your knees
His polished surface dulls and cracks
Oh for your master is displeased, because you dared to doubt his word
I am the master of this universe
Your bitter laughter breaks his back
Now you must bear your master's curse
Oh for I will not let you go
I taught you everything you know
Oh now look what you have done
Now you must walk this town 'til dawn
in every public open place
Your master's look upon your face
You feed him scraps when in the mood
You've spoilt it all for everyone
The master vegetates alone in a corner of your home
You cut your master down to size
You beat him hard and keep him nude
Now he cries and he cries now
And now he begs both night and day
Lalalalala lalala...
He lets you take him on your knee
He keeps on losing consciousness,
he dearly loves his new mistress
Now he repeats it every night
Every night on point of death
"You are the master of this universe"
Now he cries and he cries now
"You are the master of the universe
You are the master of the universe
You are the master of the universe
You are the master of the universe!"
