I am the master of this universe / and I've got so big it  
hurts  
Raise your eyes and graze your knees / oh for your  
master is displeased  
Because you dared to doubt his word / his polished  
surface dulls and cracks  
Your bitter laughter breaks his back / I am the master  
of this universe  
I taught you everything you know / now you must bear  
your master's curse  
Oh for I will not let you go / Now you must walk this town  
'til dawn  
In every public open place / your master's look upon  
your face  
Oh now look what you have done / you've spoilt it all for  
everyone  
The master masturbates alone / in a corner of your  
home  
You feed him scraps when in the mood  
You beat him hard and keep him nude  
You cut your master down to size  
Now he cries and he cries now  
Lalalalala lalala...  
And now he begs both night and day  
He lets you take him on your knee  
He keeps on losing consciousness  
He dearly loves his new mistress  
Now he repeats it every night  
Every night on point of death  
"You are the master of this universe"  
Now he cries and he cries now  
"You are the master of the universe  
You are the master of the universe  
You are the master of the universe  
You are the master of the universe!"
