It's my hand, come seal me  
Don't send me home  
It's your case, in my mind  
The worst days are yet, to come

Find me  
Find me  
I don't exist for you find

Slow down, don't ask me  
It just went right through my mind  
Come near me, come closer  
And touch my famous body part

Find me  
Find me  
I don't exist for you find

I listen far  
So dig your deal  
I really won't  
Overkill

Dig me out  
And make a fire  
Dig me out  
And make a fire
