"Lick It Up"

Lick it up
And get it off me..
Like a dark position
Simultaneously
Oh at the same time
Yeah, straight into
And it must be done.. done

While you know

I do what's best
To impress
But in September, I hate them all
Yet she entered naked the main stage
Feeling high as a volplane
What if Eve never ate the..
What if Eve never ate the fruit?
Done it must be done..

Ccc-closer
The things I have
I possess
I fight against it, I wasn't safe
I was too busy thinking a lot around me
Ignored the water above me
It's what I deserve
Done, it must be done done

Why..why why
You know
Why why why
Too slow low low
