Well now !

Are you taking luminal?
Is it harder to enter, than to fall
It was a slap in my face
It wasn't even to shock me, in first place

What are you doing to me?
I press the button 'ctrl-alt and delete'
Are you losing your mind
A happy end? No, you'll never find...

OK, Ok.. Oh great

I could have said
I should have been older
Was it really you ?
And me under
Everything's forced
All is overwhelming
Was it really you
Undressed on the painting ? (2x)

Na, na, na..
