We are never the culprits...  
We are always the victims...

Blind yourselves with indignations  
Feed the mass a vengeful elation  
Enjoy the last era you ignorant hate machine  
Enjoy the last era you ignorant pride machine  
Incite the mass to hate our brothers  
Feed the mass a justified murder

We are never the culprits in this world;  
We are always the victims who were fooled.

You act as if our hands were spotless  
Facts are picked to suit our own causes  
Enjoy the last era you pathetic propaganda whore  
When will you realize there's nothing worth dying for?  
And now you've wasted your existence  
To feed the mass a justified murder

We are never the culprits in this world;  
We are always the victims who were fooled.

We are never the culprits in this world;  
We are always the victims who were fooled.

You feel hate to give you purpose  
Lost yourself in a larger cause  
Step outside your righteous pose  
Your beliefs are not the laws

I hope I'm there when there's nothing left to hate...

We are never the culprits in this world;  
We are always the victims who were fooled.

We are never the culprits in this world;  
We are always the victims who were fooled.
