The night was ending  
He needed her undressed  
He said he loved her  
She tried to look impressed  
After the break-up  
It's just something you do  
To stop the night-time  
From falling down on you

The world is ending  
The sky is falling down  
She's at the station  
Because she's leaving town  
Oh you could stop her  
If you get out of bed  
She wants to see you  
At least that's what she said  
You've got a minute  
At the very most  
And she's gone gone gone gone gone yes she's going  
away  
Oh yes she's going away  
Oh yes she's going away  
Oh yes she's going away

And now it's over  
Cos i just saw the end  
I saw the credits  
I turned around and then  
I saw her running  
Coming back to me  
The sky exploded  
But i couldn't see

The world is ending  
The sky is falling down  
She's at the station  
Because she's leaving town  
Oh you could stop her  
If you get out of bed  
She wants to see you  
At least that's what she said

You've got a minute  
At the very most  
And she's gone and she's gone and she's gone  
Oh yes she's going away
