"There Was"

Visit "[There Was](#)" on MotoLyrics.com

We're talking again / Smiling and laughing / Ignoring
the past
Well I hope you're happy / I know there was something
Please don't / let it / die away / I know what you're
thinking
I know / what you / want to say / I won't give it names
For names have no uses / Just shots in the dark / or
easy excuses

I know there was something / Please don't / let it / die
away
I know what you're thinking / I know / what you / want to
say
Lala lala... / I know there was something
Please don't / let it / die away / I know what you're
thinking
I know / what you / want to say.
