Tomorrow never lies so live for today  
Don't be afraid of the skeletons of yesterday  
Each morning brings you closer to your goal so grab  
your chance don't let it go  
The city streets are littered with the casualties  
the could'ves and the should'ves and the would've  
beens  
Don't let this chance slip by / Because tomorrow never  
lies  
Tomorrow never lies if you live tomorrow today  
There are those who would shoot you down / ah  
there's always someone wants to shoot you down  
but you know they're never gonna be able to shoot you  
down  
if you live tomorrow today / if you live tomorrow today  
The night time blazes with all your nightmares come to  
life

But you can face the danger knowing that your cause is  
right  
and leave them all below you / bleeding as you rise into  
the night  
Because you know tomorrow never lies / no, tomorrow  
never lies  
no, it's never, never gonna lie if you leve tomorrow  
today  
There are those who would shoot you down / ah  
there's always someone who wants to shoot you down  
but they're never ever gonna be able to shoot you down  
if you live tomorrow today / yeah if you leve tomorrow  
today  
Cos you, you gotta live tomorrow today / Live it  
because tomorrow never lies  
tomorrow never lies / oh no.
