Mathematical  
But can't get through  
You live a dual life  
And you've got bruised

Cold-go-cold-go-cold..

You sing like my lover  
But I can't be here  
And all I need now  
Is to disappear

Cold-go-cold-go-cold..

Refr: I just can't be here (4x)

So convince me  
And do me good  
Please give no chaos  
I'm in your books

Cold-go-cold-go-cold..

One polluted  
One on the top!  
You're double, the devil  
Not warm, and not cold !

Cold-go-cold-go-cold..

Refr.(6x)
