It's my hand, come seal me
Don't send me home
It's your case, in my mind
The worst days are yet, to come

Find me
Find me
I don't exist for you find

Slow down, don't ask me
It just went right through my mind
Come near me, come closer
And touch my famous body part

Find me
Find me
I don't exist for you find

I listen far
So dig your deal
I really won't
Overkill

Dig me out
And make a fire
Dig me out
And make a fire
