Ain't no business like show business
ain't no sickness like snow sickness
ain't nobody like me...

there ain't no show like a strip show
there ain't no snow like the right snow
ain't no junky like me

ain't no business like snow business
ain't no sharpness like snow sharpness
ain't no strip show like those peep shows
ain't no strip show shomme tus pechos
bright light big city seethe my soul on fire

we're all strip pigs in the big mix
ain't no deep fix like a quick styx

if god's a woman she's called Betty Page
Pump up those tits you glamour rampage
bright light big city seethe my soul on fire
