[Intro:]

Uhooee

Zillaaa

Hey check it

[Verse 1:]

Things just ain't the same for gangstas

Most of di don dem deh inna handcuffs

And most of di youth dem a all turn dancers

Policeman weh shoot you, a leave you unconscious

Garrisons been losing sponsor

Cah most politician flake out like dandruff

Now court indictment a spread like cancers

And even the baby a tun inna monster

Road hot, kingfish do want answers

Rollin up in unmarked kingfish and lancers

A patrol increase due to circumstances

This year mi hear di man a not keep champions

[Hook:]

Things just ain't the same for gangstas

Don't trust even your close companions

Mi heard of armagideon deep like canyons

[Chorus x2]

So all the criminals at large

Or criminal weh large

Ah rob di country blind and di corruption camouflage

And if the streets could eva talk

What's really going on

Whole heap a people would be wanted

[Verse 2:]

Check it

Things just ain't the same for hustlers

Informers and busters living amongst us

Now every man face deh pon posters

Cyan trust people who are the closest

Hey squaddy you've been losing focus

To protect and serve cah you more provoke us

You lock off the dance when you should support us

Reggae entrepreneur dancehall promoters
Things happen for the strangest reasons
Most of the artist cyan get Visas
And now time tuffa dan Tamarind season
Dem nah reap nuh corna and di fowl waan feeding

[Hook:]

Things just ain't the same for gangstas
Don't trust even your close companions
Mi heard of armagideon deep like canyons

[Chorus x2]

So all the criminals at large
Or criminal weh large
Ah rob di country blind and di corruption camouflage
And if the streets could eva talk
What's really going on
Whole heap a people would be wanted

[Verse 3:]

Check it hey
The whole country a strap you blame us
Now that the violence get outrageous
For minimum wages some young teenagers
Cyar 12 gauges and waan be famous
Don't do a politician favours
They comin all size colour, shapes and flavours
And dem introduce to violent behaviours
And push come to shove not even dem can save us
Watch di outcome of all these capers
Dem sell more pages in more newspapers
You read dem and burn dem dem turn to vipers
Meanwhile di youths dem locked in cages

[Hook:]

Things just ain't the same for gangstas
Don't trust even your close companions
Mi heard of armagideon deep like canyons

[Chorus x2]

So all the criminals at large
Or criminal weh large
Ah rob di country blind and di corruption camouflage
And if the streets could eva talk
What's really going on
Whole heap a people would be wanted
