To our elders who teach us of our creation and our past
so we may preserve mother Earth for ancestors yet to
come... WE ARE THE LAND!

This is dedicated to our relatives before us, thousands
of years ago and to the 150 millions who were
exterminated across the western hemisphere, In the
first 400 years... starting in 1492.

To those who have kept their homelands
And to the nation extinct due to mass slaughter,
slavery, deportations, and disease unknown to them
And to the ones who are subjected to the same
treatment today
To the ones who survived the relocations and the ones
who died along the way
To those that carried on traditions and lived strong
among their people

To those who left their communities by force or by
choice and through generations no longer know who
they are.

To those who search and never find. To those that turn
away the so called non-accepted.
To those that bring us together and those living
outside... keeping touch, the voice for many.

To those that make it back to live and fight the
struggles of their people, to those that give up and
those that do not care.

To those who abuse themselves and others and those
who revive again.
To those who are physically, mentally, or spiritually
incapable by accident or by birth.

To those who seek strength in our spirituality and ways
of life and those who exploit it, even our own.

To those who fall for the lies and join the dividing lines
that keep us fighting amongst each other.

To the outsiders who step in, good or bad and those of us who don't know better.

To the leaders and prisoners of war, politics, crime, race and religion... innocent or guilty.

To the young, the old, the living and the dead.

To our brothers and sisters and all living things across mother Earth and her beauty we've destroyed... and deny the honor that the creator has given each individual. The tRuTh that lies in our hearts...

All my relations.
