So...

I said...

War! Weapons of mass destruction
War! Keep a poor country suffering

So, you wanna be free, big fighter gang,
Bush-n-ChenyÂ-me round y'oil can
Wanna keep us pumpin', your gas tax is chumpin'
Always wanna be the headlight,
Burnin' bright, blowin' everything up in sight,
Weapons of mass destruction, keep a poor country
sufferin'

You're just a big ground 0, upon a smokin' rubble hero
A bull horn, a flag waving daddy's Saudi rag, black
gold
Big money talkin' war, thug crime, oil, arms, drugs,
and dollar signs
Like a condemn that you use, you throw away the
troops
For just you few suits...

Well People...

(Chorus)

Don't believe the lies,
Stand up for Human Pride
Remember Vietnam, millions murdered, dehumanized
They teach you hate and fear, so they can cash in your
blood, sweat and tears
So... don't believe the lies, stand up for Human Pride.

I'm talkin' bout you, White House bullies,
Government corps, family world bank cronies,
Rozzer Fellow, Rockin' Childs, More Guns, War Burns
A billion dollar body count
I'm talkin' bout you, TV lynchers, Katrina's storm was a
sincher
Pave the way blow the levee down, clean Orleans to

make a white rich town

You exploit race and class, to make inequality, ethnic
cleansing makes a lot of money
Born in debt, enslaved to you, to supersize and
lobotomize the truth
You hold the reigns of every starving child, text book
operation Nazi style
With global warming on the rise, you'll stage another
false flag disguise surprise...

Well People...

(Chorus)

Don't believe the lies,
Stand up for Human Pride
Remember Christopher Columbus, the mass
indigenous genocide
They preach you terror, hate and fear, so they can
justify all the blood, sweat and tears
So...
Don't believe the lies, stand up for Human Pride!
