So sweetly delivered, your voice and guitar
Deep and free your words came with a smile
You looked into my eyes,
Said the time shared was worth while
I believe that your kind soul has touched mine

Sweet Willie, deliver
Your voice and guitar
Sure feels good to me
You play my deepest heartstrings
To the place of yearning
Longing for an old kindred soul

So sweet and simple
I found a good friend
In a time loneliness never ends
So I just wanted to tell you
I believe that your kind soul has touched mine
