Visit "[Anyone Else](#)" on MotoLyrics.com

First to wake and last to fall
Angry all the time
Are you hurt? The pain will go
Leaving less to hide

Anyone else I know
They would believe me
Anyone else would beg
Me to decide
Can't tell you what I've done
Can't take this on my own
Can't save it
What have I done again

Trouble is you're gonna leave me
Aching all the time
Have you taken all I've earned
Wrapped yourself in lies

Anyone else I know
They would believe me
Anyone else would beg
You to decide
Can't tell you what I've done
Can't take this on my own
Can't save it
What have I done again

Broken down
Help us out
Now I feel what you wanted
Always are down
Save yourself
'Cause I don't want it
