You stay up all night, till the fever breaks, you take off
work to catch your sons ball game, give up smoking so
college is paid, that's what love is.

When you know she's the one after just one dance, way
to young to know that you don't stand a chance, 16
years and your still holding hands, that's what love is.

Chorus:

Strong and real, undeniable, safe and patient, kind
and humble, never selfish, unconditional, all it has it
gives that what love is.

When they can't remember who you are, but u visit
anyway serve those less fortunate a hot meal on
Christmas Day, dive in a river 'cause there's someone
to save that's what love is.

(Chorus)

You give up everything, to help someone who's lost,
willing to pay the price no matter what the cost, come
down from Heaven to hang on the cross that's what
love is.

(Chorus)
