Lime and limpid dream colonize  
Waste the silent orders, waste the silence  
Lime, she screens the green color light  
Taste alliance order, taste alliance

And give me something to dream about  
I'm tiring, I'm cold and I want to go to sleep

Through time she leads the tunic and rhymes  
Blinding, finding order, blinding, finding  
Time she clears and found colors glide  
Lives the silent waters, seams and ground lines

And give me something to dream about  
I'm tiring, I'm cold and I want to go to sleep  
She told me I had too much to dream last night  
Lime and limpid dream colonize
