I swallow the sun to return with fire  
I harvest this moon to feed the flames  
Turn the wind  
Force it higher  
Turn the wind  
Force it higher

We drank the ocean dry  
We crushed the mountains  
Creatures became mute  
Rivers of blood flow beneath the pyre  
Set it ablaze  
Constructions collapse  
Nothing lasts  
What will rise from our bones  
We failed to defend  
This is the time to repent

I swallowed the sun to return with fire  
I harvest this moon to feed the flames  
Set it ablaze  
Constructions collapse  
Nothing lasts  
What will rise from our bones  
We failed to defend  
This is the time to repent  
Earth caught fire  
Earth caught fire

We drank the oceans dry  
We crushed the mountains  
Creatures became mute  
Rivers of blood flow beneath the pyre
