

## **Purified In Blood "Venom"**

Visit "[Venom](#)" on MotoLyrics.com

The reaper of souls- harvested by evil  
Phantom freedom- the rapist of truth  
Embody stupidity as sanity is burnt to ashes  
Reality torn to pieces- the ruin of mortality  
Death bound with damnation written in blood

Venom rushing through a body of downfall  
Servant of addiction exploits your weakness  
Blinded the infected- insanity will arise  
Minds of decay followed by demise

Symptoms of suffocation kept silent  
Enslaved mind- polluted heart-finished brain
