Qx3rd:

So I've been dating this girl for 8 months and I love her  
I put no one above her for a minute  
I wanna make her the mother of my children but there's  
just one other thing  
I went and bought her an engagement ring just to  
show her what she means to me  
See she's never been mean to me  
But recently it seems she's been holding things  
secretly  
So I asked her about it and it was nothing  
She told me she was stressed so I guessed I was just  
buggin  
Said it's something at work she said it's something in  
film  
She's a set director or something so I'm chill  
Til one day when I was at home alone  
I figured I should follow my bone so I headed to the  
CPU  
Nothing to do but zoom thru some pictures of some girl  
And then one came thru with a picture of a girl getting  
sprayed in the face  
Wait a minute that's the bitch I date  
Fuck my life.

Chorus:

Is there anyone out there? it seems like I'm losing my  
mind (fuck my life)  
I feel like it's right here but it tricks me everytime (fuck  
my life)  
I'm going out of my head but I haven't gone anywhere  
(fuck my life)  
I'm living life dead, they're saying I should take things  
slow  
But I don't care, fuck my life

Chorus

Uncle Ju:

See my birthdays coming up I plan to get blunted up  
Fuck it up? Nah G (I don't wanna screw the shit)  
I'm just a cool cat ima let it slide

Friends aint talkin bout it ima let it ride  
See I bet it's a surprise they don't wanna tell me shit  
Niggas gone bring the kush, bitches gone let me hit  
8-1-09 salty all day  
Aint shit start, fuck it, hit adult mart  
Now porno is instructional my wrist aint functional  
So ima just let it go, sex with a vegetable  
Pop it in my dvd player (playa)  
Deuces to the world niggas ima see ya later  
And to my surprise and demise to my eyes  
It was a whole bunch of guys in between eachother  
thighs  
So my penis in a mango I'm sprawled on the floor  
Gay porn on the screen as the party hit the door  
Fuck my life

Chorus.

Johnny ThirdBoy:

You're the woman of my dreams, nightmare and worst  
fears  
Your last chance is right here  
See I can take the pain away I'm guessin them other  
niggas was promising  
They lie but ima do the opposite  
Maybe a little dumb, little shaken little confused  
But if I open up my heart, you'll give me the blues  
And that is worth it, I think it's worth it to give me a  
chance  
Stop the changing no complaining for a chance at  
romance  
I see your baby fathers missing, and I aint really tryna  
fill the spot of what he's missing  
Just here to get some kissing  
Just here to get some kissing and a rub on the back  
I know you're falling for me girl cuz you don't know how  
to act  
I'm open inside and just hoping  
Open your eyes, you're tired of just moping  
You want me, then don't wanna trust me  
Can't have me, damn you must be  
Fuck my life.
