"Lovers Of A Kind"

Visit "[Lovers Of A Kind](#)" on MotoLyrics.com

So much has happened since it all began
But I am still your most devoted fans
You know I've always liked the things you do
I got a special feeling, just for you

And we are lovers of a kind
Though late at night you never stay
We see each other all the time
But who knows one day
Though we're not lovers like before
And I still think of you as mine
And now our friendship means much more
It's love of a kind

We've had our differences, but now we're winning
And in a way it's just a new beginning
It's all too easy to get out of touch
But we can't do that, 'cause we care too much

And we are lovers of a kind
Though late at night you never stay
We see each other all the time
But still - it's okay

I get a feeling deep inside
When I hear the songs they used to play
And when I think of all the tears I cried I smile

And we are lovers of a kind
Though late at night you never stay
We see each other all the time
But still it's okay
It's love of a kind
I get a feeling...

And we are lovers of a kind...
Though we're not lo-lo-lovers like before
Though we're not lo-lo-lovers like before
