You my new school (love)
You my old school (love)
And it's so true
You're the one I'm thinking of

You my new school (love)
You my old school (love)
And it's so true
You're the one I'm thinking of

I remember like it was yesterday
First kiss and I knew you changed the game
You have me, exactly, well you want it,
And I'm on it

And I ain't ever gonna let you get away
Holding hands never made me feel this way
So special, boy it's your, your smile
We so in love

La la la la
Yeah
We so in love
La la la la la love
And I just can't get enough
Of your la la la love
Yeah we so in love, love
I want you to know

You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, every, every, everything

Been a minute and we still holding it down
Butterflies every time you come around
You make me, so crazy
It's crazy, oh baby

And I don't ever wanna be with no one else

You're the only one that ever made me melt
You're special, boy it's your, your style
We so in love

La la la la
Yeah
We so in love
La la la la la love
And I just can't get enough
Of your la la la love
Yeah we so in love, love
I want you to know

You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, every, every, everything

Everything, everything, ooo
Everything, everything, ooo

[Will.I.Am]
You my new school (love)
You my old school (love)
And it's so true
You're the one I'm thinking of

Everything, everything, ooo
Everything, everything, ooo

You are my baby, baby, baby, baby love

You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, every, every, everything

You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, every, every, everything
You are my baby love, my baby love
You make the sun come up (Oh boy, oh boy)
You're my every, every, every, everything

You're the only one for me...
