Psycho
Crazy
Deranged
Mad Scientist

Ooo, what's up with us?
We always fussing, fighting
It takes everything in me to try to keep you happy
(babe)
Boy, the last time we was on the last line
Of arguing and we get to kissing and making up again
It only feels right when something's going wrong
Boy, it ain't no use for us to try and get along
Cuz the love we got is wreckless
Out of order
I would do anything for you, baby

I'm psycho and lunatic, crazy, insane over you, baby
(Over you, baby)
You got me going numb and I'm so in love and it's all
because of you, baby (Because of you, baby)
I love you crazy (I love you crazy)
But you're driving me crazy (But you're driving me
crazy)
I'm psycho and lunatic, crazy, insane in love
But I just can't get enough of you

Ooo, but with you, I just can't seem to get through to
you
Wanna let you go, but I gotta stay true to you
Baby, I'd ride for you
You know that I'll die for you
Cuz you're all that I've got
Only gets better when we going through the worse
But one day I can see me getting hurt
Cuz the love we got is dangerous, out of control
It's making me lose it, I'm out of my head over you (you
you you)

I'm psycho and lunatic, crazy, insane over you, baby
(Over you, baby)

You got me going numb and I'm so in love and it's all
because of you, baby (Because of you, baby)
I love you crazy (I love you crazy)
But you're driving me crazy (But you're driving me
crazy)
Cuz I'm psycho and lunatic, crazy, insane in love
But I just can't get enough of you

It's the little things you do
You keep me going crazy for you (Keep me going crazy
for you)
Boy, I love the way we are
Wouldn't change it for no one (change it for no one
else)
Cuz I love you, baby
Not for nothing, baby
It just wouldn't be the same if I had to live my days
without you

I'm psycho and lunatic, crazy, insane over you, baby
(Over you, baby)
You got me going numb and I'm so in love and it's all
because of you, baby (Because of you, baby)
I love you crazy (I love you crazy)
But you're driving me crazy (But you're driving me
crazy)
Cuz I'm psycho and lunatic, crazy, insane in love
But I just can't get enough of you

I'm psycho and lunatic, crazy, insane over you, baby
(Over you, baby)
You got me going numb and I'm so in love and it's all
because of you, baby (Because of you, baby)
I love you crazy (I love you crazy)
But you're driving me crazy (But you're driving me
crazy)
Cuz I'm psycho and lunatic, crazy, insane in love
But I just can't get enough of you

I'm psycho and lunatic, crazy, insane over you, baby
(Crazy as hey over you, baby)
I'm psycho and lunatic, crazy, insane over you (Over
you, over you, over you)
I'm psycho and lunatic, crazy, insane over you (Crazy
over you, crazy over you)
I'm psycho and lunatic, crazy, insane over you
