Sometimes we wonder why people cry
Sometimes we don't see the reason why
Sometimes we feel like we didn't try
To make it you and I

The road is on it's way
For everyone today
So let us see those skies
Through the children sight

Why should we cry?
Why should we cry?
Never say goodbye
Never say goodbye

The road is on its way
For everyone today
So let us see those skies
Through the children sight

Why should we cry?
Why should we cry?
Never say goodbye
Never say goodbye

Don't ever cry my croatin sky
