I saw the nightfall,
it called to me like a river of shadows
It sang to me with the
cries of a thousand ravens
That blackened the sky as
they took flight and then sank the Sol*

I shall never trust the sun again, Eridanis Nadir*

I ran away far into the woods,
to find the Sol, I called to her...
"I don't want to be forgotten...
I never wanted to be human"
Never!

So alas the sun had descended,
her fire burned brilliant in the sky
The trees bore their withered silhouettes,
that cast a spell upon unearthly white
No wolf shall keep his secrets,
no bird shall dance the skyline
And I am left with nothing
but an oath that gleams like a sword
To bathe in the blood of man,
bathe in the blood of man
bathe in the blood of man,
bathe in the blood of mankind...

She painted fire across the skyline
