Collection of butchery in my tool she'd  
Female heads and entrails hang from the ceiling  
Rats feasting on chunks of skin  
Shit and blood stains smeared on the floor  
Mangled corpses lay all around  
No one can here the screams  
Of the victims while I slay them  
Echoing endlessly within these walls  
The sight of blood making my cock erect  
Grabbing the nearest head and fucking the eye  
sockets  
Fucking it vigorously  
Driven to this life of horror, murder, and  
dismemberment  
The only thing that I can ever love  
Drowning in this sea of perverse debauchery  
Doing all I can to fulfill my needs  
Indulging in dead women  
Fuck the brains out of their heads  
Feasting on their cunts  
Let this be a lesson to them
