Here I go into blue
You think I'd learn
To stay away from you,
But, baby, here I go
Here I go, back into blue
I can't believe what I do
Did I really think
That you'd come through
Oh, baby, here I go
Here I go, back into blue
Into blue
Here I go again
I'm falling off the end for you
No matter what I do
I'm always back into blue
Some people learn, some will lose
Some people never see a single clue
But baby, here I go
Here I go, back into blue
Only love makes a fool
Out of me over you
Oh, baby, here I go
Here I go, back into blue
Into blue
Here I go again
I'm falling off the end for you
No matter what I do
I'm always back into blue
Some people learn to protect their hearts
They say "no" when the feeling starts
But some fools live their lives in the dark
For you, for you, for you
Yes it's true, I'm a fool
To ever take a chance on you
Oh, baby, here I go
Here I go, back into blue
Oh, baby, here I go
Here I go, back into blue
