### "Goblins And Trolls"

Visit "[Goblins And Trolls](#)" on MotoLyrics.com

Goblins of memory creeping through the door  
Trolls of anxiety crouching on the floor  
And everyone was here  
To haunt me in my fears  
Now that you're near  
I can make them disappear  
Back to their lair, til the time when you're not there

It all spirals wrong when you lie awake til dawn  
A meaningless existence and a worthless little song  
Counting sheep never helped me get to sleep  
Sleep comes deep when you're with me in the sheets

Oh, my dear make the devils disappear
